PROFESSIONAL PROFILE

Computer Science graduate with hands-on, cross-functional experience spanning mobile application development, software QA and testing, graphic design and video editing, field operations, and team leadership. Independently designed, built, and published Crown Barber, a multi-role Flutter and Firebase booking app, on the Apple App Store. Successfully led an 11-person field team through both phases of an 817 km² KYC campaign to full completion. Comfortable moving between hands-on technical build work, creative production, and people leadership, with a strong eye for structured problem-solving, accurate reporting, and clear communication.

SELECTED STRENGTHS

Mobile App Development	Team Leadership	QA & Software Testing	Graphic Design & Video Editing
Flutter & Firebase	Data Reporting & Excel	Google Workspace	Field Operations & Logistics

PROFESSIONAL EXPERIENCE

Team Leader – KYC & Field Operations – High Performance Company, Runaki Project

May 2026 – September 2026

Sarsink, Duhok, Kurdistan Region, Iraq - KRG Electricity Distribution Initiative

- Led and coordinated 11 field agents across an 817 km² service area on the Runaki Project, successfully completing both Phase 1 and Phase 2 of the Sarsink KYC campaign on schedule.
- Planned daily routes and assigned zones, shifts, transportation, and agent responsibilities using Google My Maps, Google Maps, and Google Earth.
- Trained new agents, monitored attendance and productivity, resolved customer and field issues, and reported progress and operational challenges to management.
- Consolidated daily operational data in Microsoft Excel and Google Sheets, including KYC totals, leaflet distribution, opened/unanswered doors, meter status, already-registered cases, and individual agent output.

FULL CAMPAIGN RESULTS — PHASE 1 & 2 COMBINED (ZONE 1)

18,002 Places Visited	9,941 Doors Opened	5,755 KYC Completed	10,019 Leaflets Distributed
8,061 Did Not Open	3,380 Already Registered	7 Without Meters	55.2% Door Open Rate

Phase 1: 9,833 places visited, 4,866 KYC completed, 53.3% door-open rate. Phase 2: 8,169 places visited, 889 KYC completed, 57.5% door-open rate. Both phases completed; campaign closed successfully in September 2026.

Founder & Mobile Application Developer – Crown Barber

November 2025 – Present

Duhok, Kurdistan Region, Iraq

- Led the end-to-end product lifecycle of a two-person graduation team project, building the Barber Shop Management Mobile App and later rebranding it as Crown Barber.
- Designed and developed a multi-role Flutter application for customers, barbers, branch owners, and administrators using Dart, Firebase Authentication, Firestore, Cloud Functions, and Firebase Cloud Messaging.
- Implemented appointment booking, service and branch management, availability, notifications, maps, multilingual support, and role-based permissions.
- Performed functional, regression, user-acceptance, usability, cross-device, authentication, notification, and API testing; wrote test cases, reproduced defects, and verified fixes.
- Managed App Store preparation and release; Crown Barber was published on the Apple App Store in July 2026.

Freelance Graphic Designer & Video Editor – Self-Employed

March 2024 – Present

Duhok Governorate, Iraq | Remote

- Created UI designs and marketing images for mobile applications, supporting product branding and app store presentation.

- Edited high-quality promotional videos for real estate businesses to support property marketing and sales.
- Delivered client-ready visual assets end-to-end using Adobe Illustrator and After Effects, managing turnaround independently as a freelancer.

EDUCATION & ACADEMIC RECORD

Bachelor of Science in Computer Science – University of Duhok

2022 – July 2026

- Completed all degree requirements in July 2026.
- Academic distinctions: Graduation Project – Excellent; Internship – Very Good; Web Design – Very Good.

GRADUATION PROJECT

Barber Shop Management Mobile App | Excellent

- Primary contributor within a two-person graduation team; completed planning, UI/UX, Flutter development, Firebase architecture, testing, documentation support, and release preparation.
- Built role-based workflows for customers, barbers, branch owners, and administrators, then rebranded and published the project as Crown Barber.
- Validated the product through functional, regression, usability, cross-device, authentication, notification, and API testing.

FINAL-YEAR INTERNSHIP

University of Duhok Library | February 2026 – May 2026 | Very Good

- Entered and verified book metadata in the university library system, including titles, authors, classifications, and shelf locations.
- Used digital and AI-assisted research tools to identify and verify missing bibliographic information and improve record accuracy.
- Completed the final-year internship with a Very Good evaluation.

SELECTED ACADEMIC PROJECTS

- Online Discussion Forum (PHP, JavaScript, HTML, CSS, MySQL) | 2024 – responsive forum with role-based administration.
- Built multimedia posts, comments, threaded replies, reposts, and post-like functionality on a normalized MySQL schema.
- VR Car Racing Game (Unity 3D, C#, Virtual Reality) | 2025 – 2026 – playable 3D VR racing project.
- Implemented vehicle physics, drifting, collision detection, race-track design, menus, and a heads-up display.

TECHNOLOGY, PRODUCT & CREATIVE

- Flutter, Dart
- Firebase Authentication, Firestore, Cloud Functions, FCM
- Git, GitHub, Figma
- Adobe Illustrator, After Effects – UI design, marketing assets, promotional video editing
- UI/UX design, user flows, stakeholder feedback
- Working knowledge: PHP, JavaScript, HTML, CSS, MySQL, Unity 3D, C#, Python, Java

QA & TESTING

- Functional and regression testing
- User-acceptance and usability testing
- Cross-device, authentication, notification, and API testing
- Test cases, defect reproduction, bug reporting, and fix verification

OFFICE, DATA & LEADERSHIP

- Microsoft Excel, Word, PowerPoint, Outlook, Teams
- Google Sheets, Docs, Drive, Maps, Earth, My Maps
- Data verification, reporting, documentation, logistics, and zone planning
- Team leadership, training, performance monitoring, and stakeholder communication
